DETAILED ACTION

Election/Restrictions

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species A: directed towards a thermal processing container comprising a heating and cooling unit and a lid provided to lower part of the container to open and close the opening and the outer periphery upper portion of the inner lid part is located inside the outer periphery edge of the lower end surface of the opening part.

Species B: directed towards a thermal processing container comprising a first flange provided at an outside periphery of the opening part located higher than the lower end surface of the opening part and a second flange located lower than the upper end surface of the inner lid part.

Species C: directed toward a thermal processing container comprising a fourth flange provided on the lower portion of the inner lid part and a second flange holder is provided on the outer lid part located between the lower end surface of the opening part and an upper surface of the fourth flange to hold the fourth flange.

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims

Art Unit: 1792

subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Species A: Claims 1 - 4 and 8

Species B: Claims 5 – 7 and 9

Species C: Claims 10 - 12

None of the claims are generic.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons:

Species A: thermal processing apparatus comprising a heating unit, a cooling unit and flange surfaces having mirror finish.

Species B: thermal processing apparatus comprising a first flange provided at an outside periphery of the opening part located higher than the lower end surface of the opening part and a second flange located lower than the upper end surface of the inner lid part.

Application/Control Number: 10/576,940 Page 4

Art Unit: 1792

Species C: thermal processing apparatus comprising a second flange holder provided on the outer lid part and a liquid receiving part capable of receiving an aqueous solution on the upper surface of the inner lid part.

As can be seen, Species A, Species B and Species C have different special technical features.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SATISH CHANDRA whose telephone number is (571)272-3769. The examiner can normally be reached on 8 a.m. - 4:30 p.m..

If attempts to reach the examiner by telephone are unsuccessful, Primary Examiner, Jeffrie R. Lund can be reached on 571-272-1437. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
